SUPPLEMENTARY INFORMATION: The County of San Joaquin has requested a temporary change to the operation of the San Joaquin County highway bridge, mile 1.0, over Bishop Cut, between King Island and Bishop Tract, CA. The drawbridge navigation span provides approximately 6 feet vertical clearance above Mean High Water in the closed-to-navigation position. In accordance with 33 CFR 117.143, the draw opens on signal if at least 12 hours notice is given to the San Joaquin County Department of Public Works at Stockton. Navigation on the waterway is commercial and recreational.

The drawspan will be secured in the closed-to-navigation

position from 7 a.m. on August 18, 2014 to 5 p.m. on October 23, 2014 to allow the bridge owner to make necessary structural maintenance repairs and to replace approach deck slabs. This temporary deviation has been coordinated with the waterway users. No objections to the proposed temporary deviation were raised.

Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies, and Disappointment Slough can be used as an alternate route for vessels unable to pass through the bridge in closed position. The Coast Guard will inform waterway users of this temporary deviation via our Local and Broadcast Notices to Mariners, to minimize resulting navigational impacts.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: August 6, 2014.

District Bridge Chief,
